Cost

- \$11,990 per student

Location

- Parabellum International Training Centre
50 Tacoma Circuit, Canning Vale, 6155
& online learning

Course Summary

- The Certificate IV in Emergency Response Coordination is aimed at experienced Emergency Services (ES) and Emergency Response (ER) personnel who are looking to further their knowledge and career. This course is particularly suitable for ES/ER Team Leaders, Coordinators, Supervisors and Captains of Resource and Industrial sector ER Teams (ERT). This qualification hones the role of Emergency Response and Rescue Team Leaders/Coordinators who are working within the Resources and Industrial industries and who are responsible for leading and performing a broad range of skills, such as discretion and judgement in coordinating personnel, equipment, services, and contingency measures.
- The Certificate IV in Emergency Response and Coordination is the industry best practice for ERT Supervisors and Coordinators by bridging the gap between the Certificate III in Emergency Response and Rescue and Incident Command and Control. It provides detailed training to develop the student's ability to lead and respond to operational emergencies through excelling in leading their emergency response teams which cannot be achieved through any other qualification.

Structure & Assessment Methods

The delivery of this certificate includes the following:

- Preparation and delivery of emergency management exercises;
- Preparation and review of high-risk plans;
- Practical leadership of crews during complex rescue activities; and
- Development and delivery of training programmes for volunteers/volunteer teams;

A range of assessments methods will be used to monitor the student's progress and assess competence. This includes underpinning knowledge assessments, online learning, face to face practical training exercises that students will take part that will simulate a range of leadership applications and techniques.

“We don't just train emergency response, we create emergency responders.”

On Completion

Students who successfully meet all the assessment requirements of the course will receive a nationally recognised statement of attainment with the following units of competency:

- | | |
|--------------|---|
| ✓ BSBMGT401 | Show leadership in the workplace |
